

YOUTUBE VIDEO OPTIMIZATION STRATEGY

FT. SWIGGY

SWIGGY

Want to increase the reach and engagement of your YouTube videos? Start with video optimization then. There are several ways to do it properly. Let's take a look at what I have done to better the reach of this Swiggy video through proper optimization. This video is already a hit with 1M+ views. Still, I have made a few changes to improve some areas.

THUMBNAIL MODIFICATION

Let's start with the thumbnail. I redesigned the video thumbnail to create a better hook.

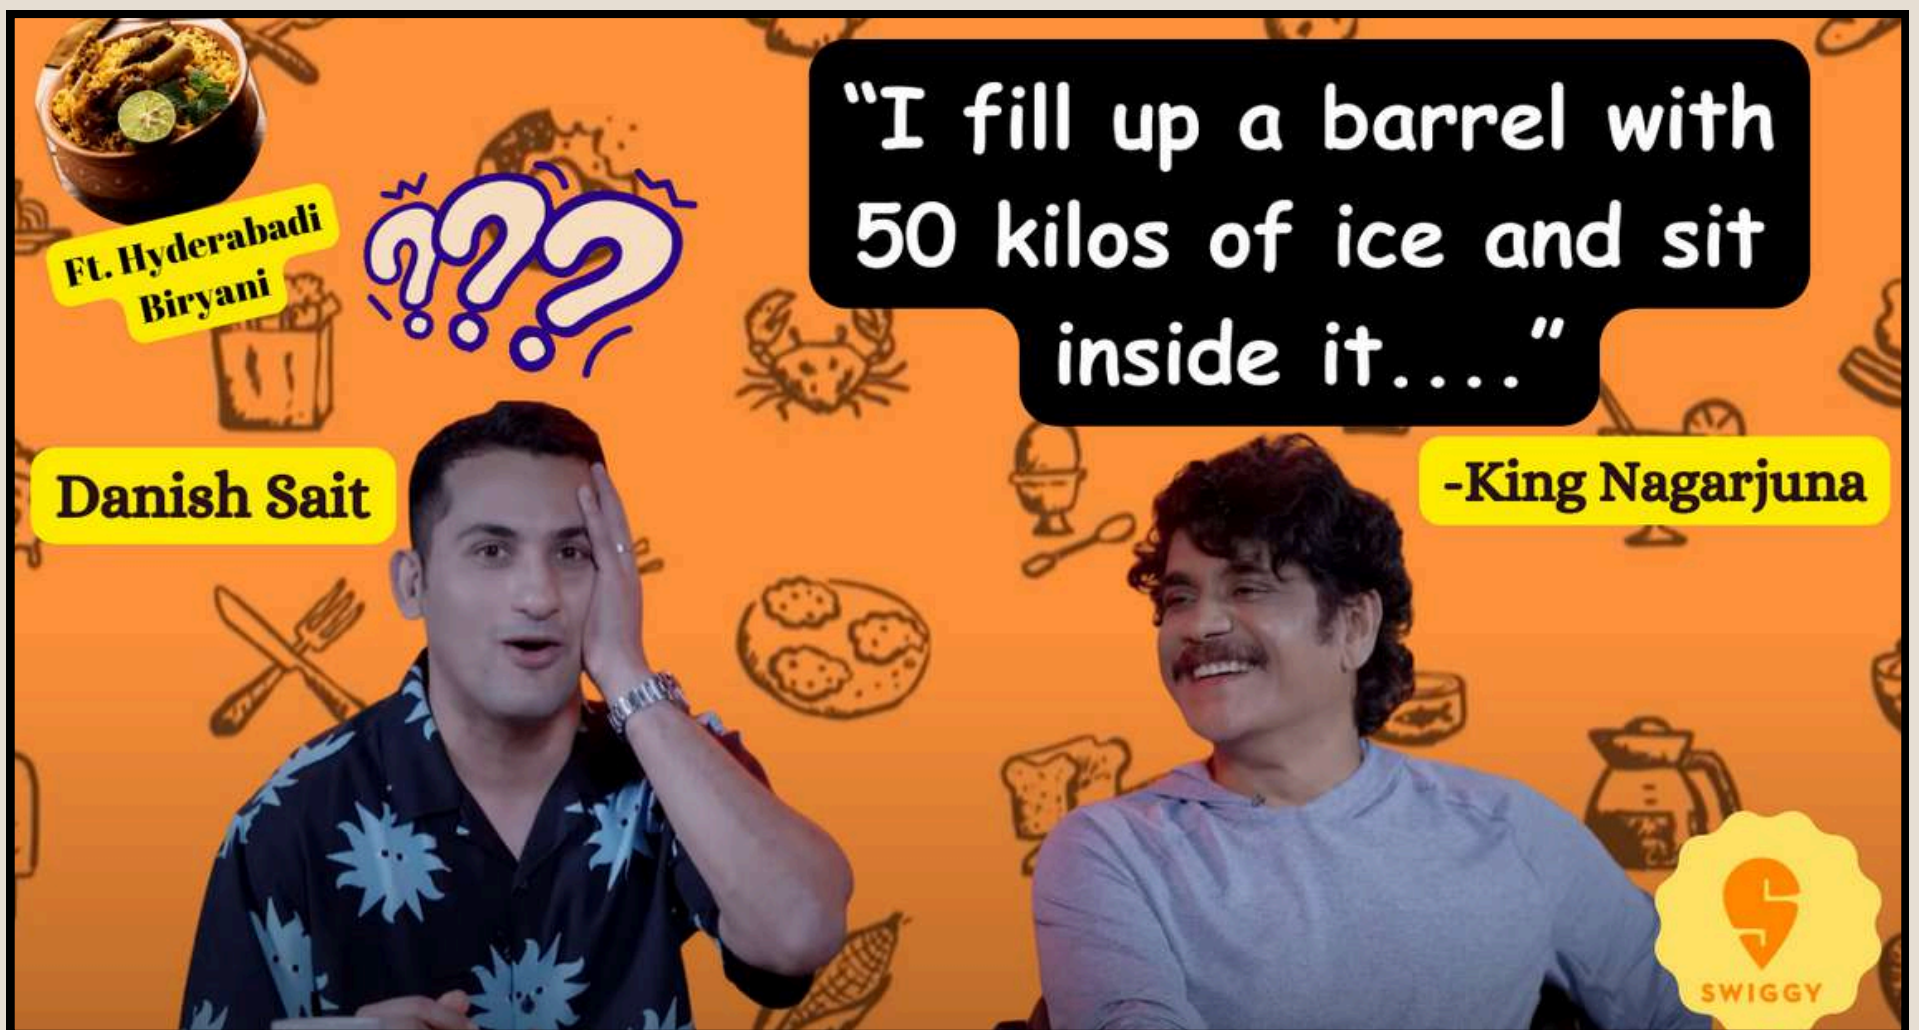

First, check out the original one

THUMBNAIL MODIFICATION

The original thumbnail was already good with a clean look. However, the caption was an opinion far too common. Also, there's little to no use of graphics. I modified some of the areas to give it a twist.

Here's my version

THUMBNAIL MODIFICATION

What did I change and why?

- **Changed the background into scattered food graphics to express that the video will mostly talk about food.**
- **Changed the caption to make it more interesting. The sudden statement about “sitting inside an ice-filled barrel” will generate curiosity.**
- **Coupled with the title, it will make the viewers question the actual secret behind Nagarjuna’s young look, ‘Is it an ice bath then?’**
- **Made the font bold and gave a dark background to the words to create a sharp look.**
- **Used some graphics to give it a fun appearance.**

TITLE OPTIMIZATION

Title is the most important part of a video. The Title contains keywords and keywords are the main players in increasing your reach. I used the VidIQ tool for keyword research and created a title with a better keyword score.

Here's the original title

“King Nagarjuna can cook Hyderabadi Biryani & will sell it for free ft @DanishSait”

Overview: king nagarjuna can cook hyderabadi biryani & will sell it for free ft @danishsait

Search volume

1,809.4

Medium

Competition

41.54

Medium

TITLE OPTIMIZATION

Now check out my version

“Intermittent Fasting or Working Out? The Secret Behind Akkineni Nagarjuna’s Young and Fit Look Despite Eating Everything ft. @DanishSait”

Better keyword scores mean better traffic and better reach.

TITLE OPTIMIZATION

What did I change and why?

- I have shifted the focus toward the term “fitness secrets” which is widely searched and in great demand.
- With greater search volume and lower competition, it can generate more reach.
- Added a question to increase curiosity.

DESCRIPTION OPTIMIZATION

The Original Description

#ghost #nagarjuna #telugumovies

**What's the secret sauce behind Akkineni
Nagarjuna's young looks? What does he eat?
Who all is he distributing his homemade achar to?
Watch this video to know all things about
Nagarjuna.**

**Do you want to know what Dulquer Salmaan's
favourite pick-up line is?
Watch :@DQSalmaan, Mrunal Thakur & Sumanth
K...**

**#nagarjuna #hyderabadibiryani #ghost
#telugumovies**

**Follow Swiggy for food, fun, or just your love for
us:**

DESCRIPTION OPTIMIZATION

What did I change and why?

- **Added more hashtags using content-related keywords for better optimization.**
- **Modified the video description using the questions in demand to make it more engaging.**
- **Included a 'call to action' part (comment down below...) to enhance engagement.**
- **Created a Timestamp list to show what the video contains. Used words that will pique curiosity.**
- **Also, used familiar keywords to draw the attention of the target viewers**

WHAT'S MORE TO DO

Improve Audience Engagement

You can do it by interacting more with the viewers through comments. You can like their comments or pin comments to encourage them. Also, make them watch the whole video by keeping something interesting at the end, like, some exclusive offer or a bigger reveal.

Promote Videos on Other Platforms

Show bits and pieces of your video on platforms like Facebook, Instagram and Twitter. Show the parts that will make the audience curious and end with a call to action.

Categorize Your Videos and Create a Playlist

Categorizing videos will help with the YouTube algorithm. It will help to recommend your videos to the right people. Also creating playlists for different category videos will help the viewers to navigate through your channel easily.

FINAL THOUGHT

This is only a start for creating more engaging video content on YouTube.

You can apply other strategies along with the ones I have mentioned. The journey towards better visibility and growth will require patience and continuous hard work. But the result will be rewarding nonetheless. It's more like the special mango pickle made by Nagarjuna Sir's Mom, takes time to taste better 😊

THE
END

**THANK YOU
FOR STAYING
TILL THE END**

**DON'T
FORGET TO
SHARE YOUR
THOUGHTS**
